Don't wait until some epidemic runs druggists out of it.  
Buy two or three jars.

When there's an epidemic of heavy colds, grip or "flu," people flock into the drug stores for Vicks like "a run on the bank." For two winters past it was impossible to make enough Vicks to supply the demand.

Druggists are well stocked now. Get enough Vicks to-day to last until spring.

Just rub it on and breathe in the vapors
